September 22, 2004

Congressman Mike Honda
1999 South Bascom Ave. #815
Campbell, CA 95008.

Dear Rep. Honda,

I believe that we have a responsibility to the 15th US Congressional District of California to discuss the issues in a series of debates. With that in mind, I invite you to participate with me in the online Print Debate, which will become a new way for debates in the 21st century especially here in Silicon Valley where our economy is driven by technological innovations. Through Print Debate voters will have direct online access to an honest debate on important issues and concerns.

This new and emerging debate format will create a platform, which will allow both of us to present our plans to the citizens and also give each of us an opportunity to ask questions of the other and follow up with responses and rebuttals. It will further offer direct online access for the voters to ask questions directly, encouraging an open and in-depth exchange of ideas and issues to the voters.

The proposed debate will be hosted on printdebate.com network and will take place throughout the month of October. If you are interested, the terms and protocols of the debate require that you respond to this letter by the 28th of September 2004. If you have any questions please contact Jonathan Firestein at Print Debate Center at 415-516-2463. I hope you share my enthusiasm and willingness to engage in a 21st century technological debate format, to demonstrate to our voters that technology is the key component of our economy.

I look forward to a favorable response and anticipate an informative debate.

Sincerely,

Raymond L. Chukwu
Republican Nominee 15th US Congressional District
